

TIME PRO

The extra mile rubber

TIME PRO fixing a new limit on the life of each product to 3000 milkings or 1000 hours of use.

Spaggiari Industria Gomma srl is always focus on creating products of value and its pursue is, with commitment and dedication, to find a solutions that our customers deserve.

By a special internal study to improve the performance of our liners, born TIME PRO, the first compound capable of ensuring a longer milking maintaining the milking liner elastic.

This is a very important results in terms of performance and reliability, which allows to the Spaggiari Industria Gomma liners, high efficiency at an unchanged price.

A long series of specific tests showed how the ideal mix of components has allowed the liner's life extension about 20% compared to market standards.
